Your Guide To Curbside Recycling

For Curbside Pickup, Pick This Up!

If you're new to the neighborhood, or new to recycling, getting your curbside recycling pickup service is easy! Your garbage service fee covers curbside collection of recyclables such as aluminum and tin cans, newspapers, cardboard, mixed paper, glass and more. To get containers for recycling, call your garbage service provider who will deliver recycling containers and instructions and collect recycling at no additional cost. Items that can be recycled are listed on the other side of this brochure.

You can also subscribe to yard waste pickup service on a regular basis. In some areas of King County, food waste may be added to the curbside yard waste collection container. Yard waste pickup is not included in your garbage service fee; you will be charged for this service. Check with your garbage service provider about what to put in the collection container and how to subscribe to collection service. To find out how to contact your garbage service provider, visit our website at www.metrokc.gov/dnrp/swd/ or call your hauler directly at:

- **City of Enumclaw** 360-825-5541
- **Town of Skykomish** 360-677-2388
- **Eastside Disposal** (Rabanco) 206-682-9730
- **Kent-Meridian** (Rabanco) 206-682-9735

74324 NE Old Cascade Hwy, Skykomish
- **Vashon Island Transfer Station**
18910 Westside Hwy SW, Vashon

NOTE

Privately operated recycling centers are available in some communities. For more information, call the King County Solid Waste Division at **206-296-4466** or find them on our website at www.metrokc.gov/dnrp/swd/.

Did you Know?

- Almost $\frac{2}{3}$ of what people throw away is recyclable. At least 25% can be recycled at the curb.
- The average King County resident generates about 17.5 lbs of garbage per week or approximately $\frac{1}{2}$ ton of garbage per year
- Recyclable materials thrown away are wasted resources. Help King County reach a zero waste of resource future by recycling materials that have value and place them in the recycling container!
- Households that recycle often reduce their garbage — helping to keep garbage costs down.

Before you buy, use or discard something, ask yourself: Do I really need to buy this?

Reduce:

- Can I purchase products with less packaging?
- Can I purchase more durable goods?

Reuse:

- Can I or somebody else use the product again?
- Does the product have an additional use?
- Can I repair something that is broken to extend its life?

Recycle:

- Can I purchase products with the ♻️ symbol when I'm shopping?
- Can I recycle items when I am done with them?

Recycle This, Trash That

Keep up the good work! More than 25% of what is thrown out can be recycled!

Recycle more, reduce the amount of garbage you make, reduce the size of your garbage can and save on your garbage bill!

Yes

Empty and rinse containers, remove lids

Plastics:

- Yes** Milk, juice, pop bottles
- Yes** Yogurt, dairy and margarine tubs
- Yes** Shampoo and conditioner bottles
